

Can We Afford It

\$5.2 Million for High St redevelopment, can we afford it? Couple that with a \$32 Million debt, \$24 Million for a pool complex, \$22 Million for a performing arts center as part of a city center redevelopment, and the start up cost of \$2.5 Million to close down and move the Sale Yards what is this council thinking? Surely the Stanley St debacle should have given pause to grandiose ideas but it appears not. This council needs to move on and let someone with a small amount of fiscal responsibility take over for a while.
