

## My Questions

Hi to all,

As you may or may not be aware I had previously made a commitment to friends to look after their property for 2 weeks. I also underwent an arthroscopy 2 days before I left so time was too short for me to be able to speak to all of you face to face. Therefore I have decided to ask a short list of questions to ascertain where you stand on a small number of issues that concern me. Your answers are for my eyes only and will not be published or shown to anyone else unless you expressly permit me to discuss them with other candidates.

All Candidates, if elected

1. Do you intend to continue with the proposed leasing of the Wodonga Livestock Exchange?
2. Do you intend continuing with the proposed closure of the Wodonga Livestock exchange?
3. Do you intend to continue with the proposed North Barnawartha Livestock Exchange and Feedlot?
4. Do you intend to continue with the proposed High St redevelopment?
5. Do you intend to continue with the proposed closure of the Stanley St pool?
6. Would you consider/reconsider replacing the Stanley St pool as originally requested and advised?
7. Do you intend to continue with the proposed Aquatic Center at Whitebox Rise?
8. Do you intend to continue with the proposal to shorten the pool at Whitebox Rise in an attempt to bring the pool in below budget?
9. Do you intend to continue with the proposal to close the Wodonga Sports and Leisure Center even though it already has a shorter pool, massage, physiotherapy, coffee shop and other sports facilities as proposed for Whitebox Rise?
10. Would you consider lengthening the pool at the Leisure Center as originally designed?
11. Do you intend to continue with the proposed theater complex on public land?
12. Do you intend to continue with the proposal that the council becomes responsible for the maintenance of the theater complex for the next 50 years?

Questions for the current councilors. Can anyone tell me what was spent as a yearly average on actual repairs and maintainance on the Bandiana livestock exchange pre 2000, what that average was between 2000 and when this council was elected and what has been spent over the last three years.

Thank you for your time
